16 April 71

MEMORANDUM FOR: Executive Director-Comptroller

SUBJECT : Retiree Travel

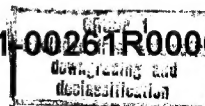

Attached is a proposal to adopt an administrative authority under the Foreign Service Act to provide death and retirement travel benefits to employees who retire under the Civil Service Retirement System. *Larry Hartman and*  
*and that*  
~~While I believe the rationale offered is a legitimate one, the proposal there is no need to coordinate further with the other is an important one and you may want to review it with the Deputies.~~  
~~Deputies.~~  
~~In anticipation of such a review, we have not coordinated the paper with them. If you wish to take it up at a Deputies' Meeting, we will make copies for distribution.~~ We would like to urge both early and speedy consideration since its adoption prior to the end of May could benefit that large number of our people who are leaving in order to be in an annuity status by 1 June 1971. *JSW*

Jack:

This is the rewrite of the proposal on extension of retiree travel to the Civil Service people. Harry has done a good job. I recommend that you sign it. I have presumed to draft a covering note for you to send to Colonel White.
